Model (generate)	GPT Image 1.5 via Loremax

Pipeline: User prompt (any language) → Grok 4.1 Fast (enhance) → GPT Image 1.5 (generate/edit) → Result image

Phase 1: Text 2 Image

User prompts of varying complexity are enhanced via Grok 4.1 Fast and sent to GPT Image 1.5 for generation.

Test 1: T2I: Very short prompt

Quality: medium | Enhance: 3.5s | Total: 38.0s

INPUT (user prompt):

кот на крыше

OUTPUT (enhanced prompt):

A ginger tabby cat perched on the ridge of a weathered terracotta rooftop at golden hour. Medium shot, 85mm lens, f/1.8, shallow depth of field. Warm amber sunlight casting long shadows, soft bokeh of a quaint village skyline in the background. Photorealistic, subtle film grain. No watermark, no text.

Result:

Test 2: T2I: Medium prompt (RU)

Quality: low | Enhance: 5.4s | Total: 28.4s

INPUT (user prompt):

девушка в красном платье стоит на берегу океана, закат, пальмы, лёгкий ветер

OUTPUT (enhanced prompt):

A graceful young woman in a flowing crimson silk dress standing barefoot on a sun-warmed sandy ocean shore at sunset. Gentle breeze tousling her long wavy hair and billowing her dress, clusters of swaying palm fronds framing the scene, turquoise waves gently lapping at the shore under a vibrant orange-pink

sky. Full-body portrait, 85mm lens, f/2.8 shallow depth of field, eye-level camera angle. Golden hour side lighting casting warm amber glows and soft long shadows, serene tropical mood. Photorealistic, cinematic film grain, natural bokeh on distant horizon. No watermark, no extra text, no logos.

Result:

Test 3: T2I: Prompt with text/logo

Quality: medium | Enhance: 4.7s | Total: 31.5s

INPUT (user prompt):

логотип для кофейни Brew House, минималистичный, тёплые тона

OUTPUT (enhanced prompt):

An original logo for a coffee shop called 'B-R-E-W H-O-U-S-E' (verbatim, no extra characters). Minimalist flat design in warm earthy tones like terracotta, amber, and sienna. Simple house silhouette integrated with steam rising from a coffee mug, bold sans-serif typography, balanced negative space. Centered on a plain ivory background with generous padding. Vector style, no gradients, no shadows. No watermark, no extra text, no logos.

Result:

Test 4: T2I: Long detailed prompt (EN)

Quality: low | Enhance: 4.3s | Total: 24.9s

INPUT (user prompt):

A weathered fisherman in his 60s standing on a small wooden dock at dawn, wearing a faded navy blue raincoat and rubber boots, holding a fishing rod with both hands, morning mist rising from the calm lake surface, pine forest silhouette in the background, soft golden light breaking through low clouds, reflections on the water, a small red rowboat tied to the dock, photorealistic candid photograph style, medium shot, 50mm lens, shallow depth of field

OUTPUT (enhanced prompt):

A weathered fisherman in his 60s standing on a small wooden dock at dawn, wearing a faded navy blue raincoat and black rubber boots, holding a fishing rod with both hands, morning mist rising from the calm lake surface, pine forest silhouette in the background, soft golden dawn light breaking through low clouds, shimmering reflections on the water, a small crimson red rowboat tied to the dock, photorealistic candid photograph style, medium shot, 50mm lens, f/2.8, shallow depth of field. No watermark, no extra text, no logos.

Result:

Phase 2: Image Edit

Images from Phase 1 are edited using short user prompts enhanced via Grok 4.1 Fast. Source and result shown side by side.

Test 5: Edit: Very short (night)

Quality: medium | Fidelity: high | Enhance: 7.2s | Total: 44.3s

INPUT (user prompt):

сделай ночь

OUTPUT (enhanced prompt):

Change the scene to nighttime: dark starry sky with a glowing full moon, deep blue-black tones, soft moonlight casting gentle shadows and highlights. Preserve all subjects' faces, expressions, poses, clothing, body shapes, identities, geometry, camera angle, and placements exactly. Adapt lighting realistically to nighttime without altering any other elements. Do not change anything else.

Test 6: Edit: Change outfit color

Quality: low | Fidelity: high | Enhance: 4.3s | Total: 28.7s

INPUT (user prompt):

замени красное платье на синее, всё остальное оставь

OUTPUT (enhanced prompt):

Change the red dress to a blue dress, matching the exact same style, fabric texture, fit, length, and details. Do not change the person's face, facial features, skin tone, body shape, pose, expression, hairstyle, identity, or anything else. Preserve lighting, shadows, camera angle, and surrounding elements exactly.

Test 7: Edit: Remove text (v2)

Quality: medium | Fidelity: high | Enhance: 4.2s | Total: 35.2s

INPUT (user prompt):

убери весь текст и все буквы с изображения полностью, оставь только иконку домика с чашкой кофе и паром, белый чистый фон

OUTPUT (enhanced prompt):

Remove all text, letters, logos, and any other elements from the image completely, leaving only the icon of the house with a cup of coffee and steam. Place the preserved icon centered on a plain white clean background. Preserve the exact appearance, style, colors, details, shape, shading, and steam effects of the icon. Do not change anything else.

Test 8: Edit: Weather change

Quality: low | Fidelity: high | Enhance: 4.0s | Total: 26.9s

INPUT (user prompt):

сделай зимнюю метель, снег, замёрзшее озеро

OUTPUT (enhanced prompt):

Recreate this scene during an intense winter blizzard with heavy swirling snowflakes, deep snow drifts covering the ground, and a vast frozen lake with cracked ice surfaces and frosty mist. Preserve the main subject's face, facial features, expression, skin tone, body shape, pose, clothing, hairstyle, and all identity details exactly. Adapt lighting to cold, diffused blue-gray tones with low visibility from the storm and subtle wind-blown snow effects. Do not change anything else.

Test 9: Edit: Add element

Quality: low | Fidelity: high | Enhance: 4.7s | Total: 25.3s

INPUT (user prompt):

добавь радугу на небо

OUTPUT (enhanced prompt):

Add a vibrant, realistic rainbow arching across the sky in the background, with clear spectral colors (red, orange, yellow, green, blue, indigo, violet) and subtle glow. Integrate it naturally with the existing lighting, weather, and atmosphere. Do not change the subjects, faces, expressions, poses, clothing, body shapes, foreground objects, camera angle, geometry, shadows, or anything else. Preserve all identity details and scene composition exactly.

Test 10: Edit: Complex scene change

Quality: medium | Fidelity: low | Enhance: 6.1s | Total: 40.9s

INPUT (user prompt):

перенеси девушку на улицу ночного Токио, неоновые вывески, мокрый асфальт, отражения огней

OUTPUT (enhanced prompt):

Recreate this scene with the girl standing on a vibrant night street in Tokyo, surrounded by glowing neon signs in Japanese and English, bustling urban atmosphere, wet asphalt reflecting colorful neon lights and street lamps, puddles on the ground with vivid light reflections, distant skyscrapers and crowds in the background. Preserve the girl's face, facial features, skin tone, body shape, pose, expression, clothing, hairstyle, and all identity details exactly. Adapt lighting to match the neon-lit night setting with dynamic colorful glows, wet sheen, and realistic reflections. Do not change anything else.
